Comfortable, cosy and thermally efficient

Intelligent design..

Enjoy the Practicality of EASi-FOLD Doors

The innovative and revolutionary EASi-FOLD Doors have been designed for practicality and performance.

The effortless sliding design enables you to maximise your view of the outside and benefit from more light within your home.

Selecta has developed EASi-FOLD – a high-performance, secure and visually stunning PVCu sliding panoramic door system that's designed for hassle-free, simple operation and easy maintenance.

EASi-FOLD Doors are practical and versatile with a stunning sleek and modern appearance which is why sliding doors have become so popular with homeowners.

Consistent, straightforward and smooth operation ensure that the EASi-FOLD sliding panoramic doors create a stylish, value-adding feature to your home.

Maximise your view of the outside with a stunning sliding panoramic door..

Open up your home to the world outside

Visually appealing...

Easi on the Eye

Open up your home to the outside with a sliding wall of glass. Transform your living space with no barriers between the outside and your home.

EASi-FOLD Doors can be up to six door panes wide. The doors have a choice of the master door being on the left or right with every other pane sliding effortlessly across a track, pivot and fold against the master door. The operation is totally different to a conventional bi-folding door as each pane operates individually.

The EASi-FOLD Door combinations are all encased within a slimline package with slim sight lines.

There are no visible hinges or handles on the sliding doors, thus providing a sleek look. The smooth operation of the sliding panoramic doors is revolutionary as they also unobtrusive and don't encroach in to the internal and external surrounding space.

EASi-FOLD Doors can be configured to meet specific customer preferences

Premium quality and design

Easi-glide sliding doors...

Easi-Functionality

A smooth, easy-glide sliding panoramic door operates on a teflon coated track and will operate smoothly for many years to come.

A multi-point locking system and a 28mm internally glazed sculptured or chamfered bead provides you with increased security, whilst a PAS 24 Enhanced Security option is also available.

EASI-FOLD sliding panoramic doors come with a choice of 2, 3, 4, 5 or 6 panes with each pane sliding effortlessly against the master door and held steady by a powerful magnet.

*Smooth, flawless easi-operation
for many years to come*

A room with a view

Innovation and Superior Design..

Superior Innovation and Design

- 1 **Full PVCu Frame** - Designed to integrate with cills and ancillary items
- 2 **Multi-Point Locking System** - High security locking system with PAS 24 Enhanced Security option
- 3 **Energy Efficient Profile System** - One of the more thermally efficient profile systems around
- 4 **Fully Reinforced** - RTR Bar or Steel reinforcement for maximum strength and security
- 5 **28mm Single Leg Knock-in Bead** - Internally glazed, sculptured or chamfered, for extra security

Thermally Efficient Profiles

EASI-FOLD Doors are manufactured from Advance 70 profiles which are one of the more thermally efficient window and door profile systems in the market.

The profile sections are designed to ensure minimum heat loss through the frame and sashes thus keeping the warm in and the cold out.

Quality hardware...

Specifically chosen to suit

The Yale multi-point locking system is purposely designed for the Advance 70 System and ensures excellent security for your EASi-FOLD sliding panoramic door.

The hinges are enclosed and so are not visible with the master door closed.

The doors operate without any mechanical rollers, with teflon coated pads gliding along a track, which ensures durability and smooth and effortless operation of the sliding panoramic doors.
