Panoramic Door Styles in Demand

As homeowners and housebuilders seek to improve their homes and inject that elusive “wow” factor, the stunning panoramic style of door has become an increasingly popular choice. Panoramic doors enable large glazed ‘walls’ to be created, flooding interiors with natural light and bringing the outside into the home.

The concertina-style folding and sliding design enables the entire doorway to be opened up, seamlessly integrating indoor and outdoor spaces. MASTERfold opens up your home to the outside.

Selecta has developed MASTERfold– a high-performance, secure and visually stunning PVC-U panoramic door system that’s designed for hassle-free operation and maintenance.

MASTERfold offers all the aesthetic and functional benefits of timber and aluminium alternatives, but at a more affordable price.

It incorporates a host of intelligently designed and precision engineered bespoke components that enable accurate, consistent, straightforward operation.

Inject that elusive “wow” factor
with a stunning panoramic
style of door...

Connecting you to the world outside

Visually appealing...

Master Aesthetics

Open up your home to the outside with a panoramic wall of glass. Transform your living space with no barriers between the outside and your home.

Panoramic bi-folding door openings can be up to six metres wide, with up to six door leaves. The simplistic roller assembly means doors can be configured to meet a customer's individual and personal preferences, from a simple 2/2/0 configuration to a more complex 6/3/3 combination.

A specially designed interlocking trim between door sashes, creates a clean, attractive finish.

The panoramic bi-folding door combinations are all encased within a slimline package with slim sight lines to rival any bi-fold door on the market.

An attractive, unobtrusive handle fits flat to the door sash, enabling opened door sashes to sit neatly side by side, maximising the size of the door opening.

An option of sculptured or chamfered bead and door sash, thus giving you a choice of finish.

Doors can be configured to meet specific customer preferences

Premium quality and design

Easier, smoother operation...

Master Functionality

The MASTERfold Bi-fold door enables you to maximise your living area whilst giving you excellent functionality.

The innovative design of the door roller, top guide and running track ensures that your bespoke panoramic bi-folding door glides effortlessly across the full opening.

Ergonomically friendly handles ensure simple and easy use to lock, unlock and slide your bi-folding doors.

The Ultra Low 26mm Aluminium Threshold option offers easy access for family living whilst also Part M compliant when used with an optional double ramp. This enables easy wheelchair and pushchair access through the bi-folding doors.

The Ultra Low 26mm Threshold has been designed for use in sheltered external applications or as a room divider.

The multi-point locking system provides excellent security and strength.

Innovation and Superior Design...

Master of Innovation and Design

- 1 **An Ultra Low Threshold Option** - Surface mountable 26mm aluminium threshold offers easy access for family living
- 2 **Choice of Access Ramps** - Document M Compliant at 15 or 23 degrees for easy wheelchair and pushchair access
- 3 **Advance 70 Profile System** - 5 Chambers making it one of the most thermally efficient profile systems around
- 4 **RTR Bar** - Recycled Thermal Reinforcement for added thermal efficiency and strength
- 5 **28mm Single Leg Knock-in Bead** - Internally glazed, sculptured or chamfered, for extra security

Thermally Efficient Profiles

The MASTERfold Bi-fold Door System is manufactured from Advance 70 profiles which are one of the most thermally efficient window and door profile systems in the market.

The five chambered profile sections ensure minimum heat loss through the frame and sashes thus keeping the warm in and the cold out.

Quality hardware...

Specifically chosen to suit

The MASTERfold bi-fold door hardware has been designed and specifically chosen to enable a smooth operating, effective and secure panoramic bi-folding door.

An enclosed aluminium roller track provides smooth-opening, easy-glide door operation.

The ergonomically friendly handles ensure simple and easy door operation when opening, locking and unlocking.

A specifically designed heavy duty hinge offers effortless door opening, excellent security and load bearing.

A high security multi-point locking system enables a solid, secure and efficient bi-fold door at all times.

The magnetic catches ensure that the door sashes are secured when opened.
